We make sure our recommended casinos are safe by putting them through our 25-step review process. This covers categories like security and trust, bonuses and promotions, mobile gaming and loads more to scrutinize each site. If it's not up to scratch, we add the site to our list of sites to avoid.

The ease of making deposits is very important for a casino to get a positive vote from us. We check all the accepted deposit methods and make sure the most popular ones like debit and credit card, bank transfer, PayPal, Neteller, Bitcoin, or other cryptocurrencies are included. We'll also get in touch with customer support anonymously with a set of very specific questions and queries to see how quickly and thoroughly issues are dealt with.

The last step of our review process is probably the most important one for every online casino player. With our freshly deposited funds we proceed to play a wide array of casino games such as online slots, online blackjack, online roulette, and online poker to try out the speed and quality of the gameplay. We'll also make other bets like sports and lottery games. The remaining balance and winnings are then cashed out, with casinos ranking having fast cashouts and offering a fast transfer of funds to players. We also look out for great bonuses and promotions.

If a casino scores well on all the above steps, as well as working well on mobile, we give it a final score and write a detailed review of our findings. Each casino is re-checked every few weeks and our review scores are updated accordingly. As we are advocates of transparency, we will list all of the good and bad points for each casino. Casinos who get a bad score are added to our list of sites to avoid, so you know the sites you should be steering clear of.

The most popular free casino slot game is Starburst, with over 700 million spins played by players across the web. It is a simple 10-payline slot with only a 500x top prize – but, there are some fantastic features that will keep you engaged as you spin the reels.

In NetEnt's Starburst slot, landing a wild anywhere on the reels will cause the wild to expand and provide a respin. Should another wild land on the respin, the process will continue. It is also a low volatility slot game that offers up wins more frequently than your average slot game.

One of the most popular games at Rival Gaming casinos like Slots.LV is A Night With Cleo. It's a more "mature" style of game, touted as the "sexiest slot on the web" with some very saucy graphics – but, there's a lot more to it in terms of bonus rounds and prizes.

The game features a bonus game where players can win up to 15 free spins, and there is also a gamble feature that is available after any spin. While, of course, this slot is a game of luck, the gamble feature gives players a tiny bit of control, as they have the option to potentially double their payouts – but there is also the potential to lose them all. It's not very often you see a gamble feature in slot games anymore, so it's worth checking out A Night With Cleo if you want to see one in action.
