And despite many imitators, there's still no better place to play. After launching in 2018, it didn't take long for FanDuel to become America's go-to for sports betting and the #1 online sportsbook.

The app for Fanduel casino states that it has a black jack live and a blackjack classic which they do not have they have minimal slot games which I've played every one of them and the only two interesting games are there I recommend the gorilla game and the butterfly game and the one blackjack game because there's only one not two they need to put more slots on here I see that they have the Holden one there now which is a good thing but they definitely need to add more slots on this app because it gets boring playing the same slot machine all the time and the rest of them are for a little kids it seems like but besides that everything else is great the payouts are fine the sports betting is awesome that's about it and if you also try to contact them you have to go through a whole bunch of crap it's not even worth trying to contact them there's no direct line to get them They should make things easier for you to contact them so break it all down there's only one blackjack game and they have the new hold game on their minimal slot machines payouts are great contacting customers summer support is terrible and everything else seems to be fine so I'm very happy with the site besides a couple things

This casino is okay but certainly not my favorite online gambling app. Other apps have many many more games to choose from including Progressive Jackpot games and they offer better promos. Daily chance to win bonus \$ or free spins. I understand Fanduel is a Sportsbook mainly but other apps like mgm offer better sports promos too and also award loyalty points for playing that can be used to buy free play. I play a lot and think there should be some type of rewards program for loyal players to earn bonuses..in the last 10 days my account says I've wagered over \$12,000 that should count towards something. .has some connection problems at times but not the worst casino app I've played. Just needs better promos more games and a loyalty program. Have NO complaints about winning/losing or fairness of the games chances are the same everywhere..games aren't rigged. I've won and lost on EVERY app I play including this one. I just wanted to include that because I hate reading reviews of people just complaining because they lost and saying games are rigged □□□

We highly appreciate your review and feedback on our app. We have promotions running daily for users to take advantage of. You can search them through the promotions tab on our site. For further information on promotions please do not hesitate to reach out to our support team for additional information.

The amount of times losing 16 out of 17 or 23 of 25 hands in a row is remarkable! The deal will "hit" "a 8 card 21 to beat your 20 (if somehow you're able to get that) it's all just a joke. Don't play the casino. The customer service about this matter is even worse. UPDATE***** After losing 20 out of 21 hands they still say it's "regulated" and use the same automated messages. DO NOT give them any money. This app is a joke. I will never use FanDuel again *ANOTHER UPDATE* upping your bet? You'll lost EVERY time. This use draft kings, mgm, they at least give you free bets. This app gives you nothing, and they do nothing to help un happy customers ANOTHER UPDATE:Still nothing changes. Customer service won't answer. Won't fulfill "bonuses" I've opted into. Up the bet? You'll lose by 1 every time. Take my word for it and don't try Upping the bet and they hit blackjack! Rigged. And they still won't answer about it STILL NOTHING BACK FROM CUSTOMER SERVICE UPDATE:Still nothing from customer service Update:Still nothing. I've noticed the returned messages on here from "customer service "are word for word the same. Shocks me none. This app blows, and they won't reply to my reviews!!Still refuses to reply. This app is a joke!!

Thank you for contacting FanDuel Casino and providing your feedback. As one of the leading online gambling sites, we pride ourselves on being honest and fair across the board. We are regulated and audited regularly by the state. I can assure you that our customer's satisfaction and enjoyment is our top priority.

Few other PA online casinos can offer an experience as smooth and navigation as easy as FanDuel. The site draws upon its expertise from several parts of the FanDuel Group.

As a new player to FanDuel Casino online, you can try out the site with a welcome bonus worth up to \$1,100. First you'll get up to \$1,000 back if you're in the hole after Day 1. Simply sign up for your account, make a deposit, and play whatever casino games you like. FanDuel will refund any net loss incurred in your first 24 hours on the site, up to \$1,000. FanDuel Casino offers you the ability to try the site on your first day and if you're down, you'll get up to \$1,000 back in casino bonus money. It only requires new players to make the first real-money deposit and wager.

As a new player, you have 24 hours to make all the wagers you want. FanDuel will refund any net losses during the 24 hours to your account.

There are limits, however. The insurance only extends for \$1,000 worth of losses.

Furthermore, FanDuel will only dispense the refund if you have net losses. So, it's not available for those who end up profiting overall (even if they suffer from some loss).

Nevertheless, we are big fans of FanDuel's Play it Again welcome offer.

New casino players can either sign up for an account or use their existing FanDuel Sportsbook account to login and play. FanDuel Casino is also available inside the FanDuel Sportsbook app, and customers that already have a FanDuel Sportsbook account can use the same login for the FanDuel Casino app.

Here is how to download both the iOS Apple and Android apps for each system's respective devices:

iPhone and other Apple users can either visit the FanDuel website or the Apple App Store and initiate the download. Since both the FanDuel sportsbook and the FanDuel Casino are both on one app, only one download will be necessary for both.

If you go through the FanDuel website, you will be directed to the Apple App Store. Once you are there, all you need to do is download the application and use it like you would any other app.

We recommend following our links and completing your signup to ensure you receive all bonuses for which you are eligible, then downloading the app and logging in there.

If you are using an Android device, you are going to need to do a few extra steps (but it is definitely worth it)!

First, set your mobile device so that it will accept downloads from unknown sources. Once this setting is in place, you will be able to access FanDuel's Online Casino App via the FanDuel website.

There should be a button on the website that says "Play Now". Once you hit this button, your device should recognize that you are playing in Pennsylvania and the .apk file download should start automatically. The download will go through a few on-screen prompts until finally, you get the confirmation of the download.

Once the app is downloaded, it will be able to be found where the rest of your apps show up by default. Afterward, there is nothing more that needs to be done. You may access the app and use it like any app downloaded from the Google Play Store.
