HelloRoblox is a generator that subscribes you to different YouTube channels. When you click on the Subscribe button, it will prompt you for your e-mail address. This is where they will send the free robux once you've earned enough. A video with over 50,000 views can earn you around 100 free robux, while videos with over 10 million views can give 500+ free robux!

Roblox has been criticized by parents for issues such as allowing players to have relationships with other users through the game, and allowing players to (unsuspecting) "friend" hackers. Other criticisms include consuming large amounts of bandwidth, and not being child-friendly. The site has been removed from school computers in order to protect children.

In 2018, ROBLOX added a new feature called the Robux Exchange. The exchange allows players to trade their hard-earned coins for ROBUX and for certain items, which can be used to build games. To use the exchange, players must have at least 50 ROBUX in their account.

And of course, they provide you with ad revenue as a reward for using their services. So we'll be using two such websites to show you how to get more free Robux

The game is not free of problems and some of them are still not being fixed. The profit issues that confront the company have been allocated to one person, Travis, who is given a large portion of the income. This is unfair as most players have less than \$5 in their account.
