Not all games are created equal and often we see them develop at an incredibly fast pace which makes us believe that this process will be smooth and easy but it doesn't always happen that way: first of all, people often have unrealistic expectations for themselves and secondly they forget to look at what others are doing and how the market reacts to new games.

ROBLOX has also been criticised for lacking any kind of quality assurance for its games. There have been many issues with the quality of some games and many users have complained that their game descriptions are not accurate. The site is also frustratingly inconsistent in the manner it deals with things like this, often banning users who complain about bugs and glitches within their games but not actually banning anyone who commits an illegal act, such as copying someone else's game and selling it without permission.

Don't be a cheapskate when it comes to getting free robux for games. Some people will spend money on virtual goods, but most of the time it is more cost effective just to play the game and earn the prizes. For example, many games offer you a way to win points that can be converted into robux currency. You can play without spending a cent and still be able to get free robux.

On November 1, 2015, Roblox was officially sued for copyright infringement by Joshua Moskowitz, also known as "Dr. J". The lawsuit was filed in Los Angeles Superior Court and details how parts of "The Maze Runner" were used to create a ROBLOX game called "The Maze." The lawsuit alleges that Dr. J is notifying every author use of his game engine to give them the opportunity to either take down their games or have a section added to his website.

ROBLOX was launched on March 9, 2007. ROBLOX later went under the name "Genesis". ROBLOX officially changed its name to ROBLOX on November 3, 2007. On March 15, 2009, ROBLOX's new style was made official. Then on March 22, 2009, a new logo was released for the first time since 2007. On August 7th, 2010 it went back to its original look. On February 23rd 2011 ROBLOX announced the launch of Minecraft Clone called Blockland. Then on May 19, 2011 ROBLOX announced it had launched a new engine. On December 18, 2011 ROBLOX announces a new game called Roblox City Builder.
