Another thing I like about roblox is how inclusive it is. I have learned that all players are welcome to play in this game, and this includes all ages and genders. This can help people meet new people with similar interests as well as find a way to communicate with others online. One time when I played Roblox, I was able to play a game that was very similar to the popular game fortnite. This is very fun for people who enjoy playing fortnite because they can play a similar game for free! It also gives people an opportunity to try something new and different while still being able to meet new people online.

If you have never played "Robloxian life" then it won't be easy for you to get Robux because you'll have to do tasks, watch videos, spam the chat, and probably a lot more. If you want Robux fast, then this may not be your best game.

As of April 2018, there are over 2,000 games on Roblox. Many of them are "clones" of other players' games made by other players, which can lead to copyright issues if the original creators do not want to share their work. Players may be able to report these games as well as block people who play them from their online profiles or in-game friends list. Some games have caused controversy with their focus on violence, sexuality and racism. However, Roblox staff have stated that the problem lies in the people who play these games, not in the games themselves.

ROBLOX's official blog (started on November 19th, 2011) and LiveJournal were used to communicate with the community prior to the creation of the forums. The blog is still active but has been replaced by a Forum that is more conversational tone. The LiveJournal was shut down in October 2016, making ROBLOX one of few third-party sites without one.[12] In January 2017, ROBLOX launched their YouTube channel. The channel currently has about 1 minute and 38 seconds of uploads.

On May 24th 2019, ROBLOX announced another update for their Studio 2.1 version. This update, known as "Studio 2.1.1", was released to the public on May 31st 2019.[98] Like many other platforms, ROBLOX also has an adult chat system. This is usually used by roleplayers and other users who wish to talk about mature topics freely. However, players have abused this feature by advertising Roblox pornography websites or trolling innocent users.[99] Some users have also used the system to claim that their username is "Not suitable for children" or use inappropriate usernames in order to get attention from others.[100] It is unknown whether ROBLOX will ever remove this feature from their platform.
