In early 2016, Roblox released an update that removed the "Customize" section from the User Interface. This introduced a new UI, which can be viewed here: Roblox Main Page. The new UI has many features that were previously built into the program such as a Store and a Help area.

Many games on Roblox are online multiplayer games. These games require an internet connection to play and players earn virtual currencies. These currencies may be used to purchase premium features or clothing, which can not be obtained in game. Players can purchase these premium features using real currency such as iTunes or Google Play credit. A key feature of this application is that it allows the users to earn free Robux through online ads and offers, and then use those free Robux for in-game currency in many popular games on Roblox such as Roleplay World or Math Trade Schools .

On December 20th, 2018, ROBLOX announced that they would be adding system tokens to enable their users to "pre-order" an item before it is put on sale. This way users can give feedback and ROBLOX could make changes if necessary.[26]. In late 2011 when the game was seemingly more popular than ever, numerous reports were made about a player called "unikraken," as well as his group of friends he allowed in his places. This user was not banned from the site for a long time, which attracted hordes of people to his server. The servers would become infested with bots, cheats, hackers and other fraudulent activities that it slowed the game for everyone. These servers have since been taken down and ROBLOX has removed as much of these malicious players' information as they could.[27]

Roblox provides wireless headsets in the form of headphones and microphones. This enables players to communicate through the game, chat with other Roblox users, and play games with other players. In some online games, players are able to play "mini-games" such as "Horseball" that involve shooting a ball across the screen to attack another player. However, in Roblox, mini-games give physical feedback from hitting objects in the game world; for example, when they jump off a ledge in an abandoned mine shaft.

- The idea of having a game where you can make your own avatar and decorate your own house, it's pretty cool but it makes the game even more repetitive.
